A BRIEF HISTORY OF WASATCH COUNTY FROM ITS SETTLEMENT AND ESPECIALLY OF TEHER CITY by William Lindsay

luch of the early history is taken from the journal of John Crook who was one of the original band of Pioneer settlers and was one of the 19 men who with their families wintered here in 1859 called at that time Provo Valley. He says in the winter of 1857 a meeting was held in Provo by men who had no land and who desired to venture making new homes in that high cold climate where it was claimed there was frost every month of the year.

Prosident's Youngs advice was to settle whrever possible to raise crops of grain hay and vegetables to sustain like. But to be sure to organize and go in parties sufficiently numerous to defend themselves from the attackes of the Indians. It was known that the land here was good and water plentiful. But they had no proof that wheat could be natured. But these wen had faith to believe that with the blessings of the Lord they would succeed and they were ready and willing to make the attempt as earley as possible in the spring of 1859. There were a few men who had wintered stock in the valley a year or two before this Wm. M Wall Wm. Meeks, Wh. Cummings and Joseph Parker buty they were all very doubtful about reasing wheat in the climate. Charles Shelton and Alex Wilkins are also said to have a ranch house all these were in what is now the Charleston Ward where they could but grass on the river bottoms.

Provo Valley had been used as a surner herd ground for the people of Provo and and vicinity for a number of years. The land in what was later called the North fields had been surveyed by local non late in 1853 and early in 1859 into ten, twenty and forty acre plots so that the land claims could be established. And the cost of the surveying was the only expense for the land at that time.

The men who attended the meeting in Provo in 1853 appointed Wm. Moels to be their leader when thy would come up the valley in the following spring and that all would make preparations for making a start as early as possible bringing their vives and children, couspigs, chickens as well as plous, harrows and furniture with the avoyed intention of making their future homes here if the Lord would bless them

They had a very bad read and several snowslides to pass over in prove Canyon.

In fact they had to uncounte the ungens in some places and take them over the snowslides in severate the pasts of the parts which made very hard work for the men and their ex teams. It was the third day when they reached the open valley and to their surprise t ey found 2 men plouing and who had been plouing for 2 days. Their names were James Davis and Robert Breadhead they had 2 yoke of exem for a team. Two other men had also ploued a day or two on Center Creek they were Joseph Parker and the Culmings with ex teams also.

This little company went on to a spring one mile north of where the city of Heber new stands and made their camp as this was near to what they considered the best land in the valley. This land was covered with sage brush in some places very thick and hard to clean. As their camp was the largest in the valley and most of them were fur, England they called it london and the Spring cill retains that name. They each hade their claims to 20 and 40 acres of the land and unt to work in earnest. Plowing and sowing with hope and faith that they would reap a harvest in the fall. While getting their crops planted they camped near the spring in their tents and wagens. A term site had also been surveyed as soon as possible t by began to buildlog cabins and prepare for winter. They decided to build close together in a fork shape as to be able to protect themseles from the Indians if need be, the north west corner of the townsite was selected as the place to build the fort which at first was 2 blocks long and 2 blocks wide. The houses were close together with openings to let their

all built with green cottonwood logo cut on the fiver bottoms. They were all kept very busy raising their crops and building homes where they would be fairly comfortable in the cold winter months that they knew was sure to come. When they would be shut out from the rest of the world for months. When they got their log huts prepared they brought their vives and children to their now homes to share in their troubles and trials.

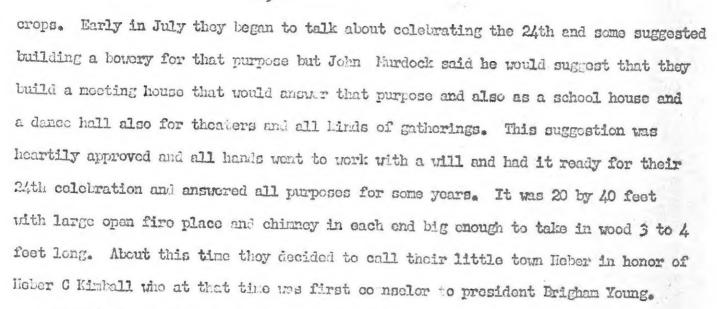

Their first wheat crop was injured some by the frests but still could be meade into flour and they were not discouraged. However they had to go to Prove to a grist mill and with our terms and bad reads that took 4 days. So much of the Wheat had to be ground in coffee mills or boiled and waten whole with milk. Most of the families had one or more come. One of the hardest jobs those men had to do was to provide hay for their exen and cows during the winter menths. The only grass they could get grow in wet swampy places and all had to cut by hand with scythes which was the very hardest kind of work.

There was quite a number of non the came and raised crops and built houses that summer but went back to Prove for the uinter rather than provide hay for their cattle during the long winter and to be shout out from the rest of the world for months. The names of those who with their families stayed in the valley in the winter of 1859 are Thomas Rasband, John Crook, C. N. Carroll Elizabeth Carlile, John Jordan, Alex Sessions, Bradford Sessions, Hyrum Oakes John Lee, Richard Jones, James Davis Wm. Davidson, James Laird Elisha Thomas, James Carlile and Jane Clotworthy a widow Charles, C. Thomas then single lived with his brother Elisha and George Carlile and Elias Cox.

Jesse Bond and Robert Broadhead then single went to Prove as did quite a number of others, John Carlile got scriously hurt while crossing the Prove river in June 1859 and he died in the valley. A child of Sariah Crooks had died in June 1859 being the first death among the settlers here. David Wood was the first man to plow on the west side of the Prove river in this valley. Others besides him raised small crops but all went back to the lower valleys for the winter. Those who live in the

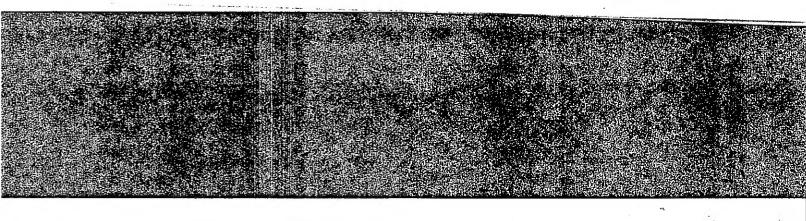

Mias Cox and Mohn Hamilton are given credit for building the first houses in the fort The first white child bor in the valley was Timpanogos Dafridson daughter of Wm and Ellen Davidson, and the first child born in the fort was Sarah Crock daughter of John and Mary Giles Crook, The first winter in the valley was a long and dreary one for those who remained. The snow fell early and deepened for 3 or 4 months they were entirely with out communication with the rest of the world. However they had their little meetings on the Sabbath day and at other times in their simple sincere way tried to cheer and encourage each other as bost they could. It was related that near the end of March 1860 the snow was still doop and no signs of spring and some were getting discouraged they held a meeting in Thomas Rabbands house and during the meeting they prayed sincerely and earnestly that the Lord would hear their prayers and cause the snow to pass away very soon and the spring time come that their famished oxen and cows might get grass to eat and that they themselves could again get in touch with their friends in the lower vallies. And before the meeting was dismissed water was dripping from the eaves of the house and they felt sure their prayers had been heard and answered.

In the spring 1860 quite a large number of new people came to make their homes in the new valley. They had heard that grain crops had been raised here the year before and that good land and water to irrigate it was plentiful and cheap. And they were auxious to secure land and make themselves homes while there was such a good chance to do this. Who Meeks who had been chosen as their leader before they left Provo never made a real home in the valley. So early in 1860 Wm. M. Wall was appointed presiding Elder and he chose John M Murdock and James Laird as counselors at that time there were some 200 hundred people here making homes and putting in

In 1860 the greater part of the north field was put under cultivation and fairly good crops raised the wheat however was somewhat shrunken by the early frosts but still could be used toimake flour. The first throsing machine was brought her by Saith and Bullock it was small and thrashed very slowly using horses for power . The grain afterwards had to be run through a fanning mill to seperate the wheat from the chaff and that was turned by hand which made threshing a very slow process. Some of the grain did not get thrashed before winter set in. By this time most of the land in the north field being claimed it was necessary to fence in to protect their crops as exen and cows had to find their feed on the ranges during the summer . An estimate was made and it was found that a rod of fence for each acre of land was required to enclose the field and each person was required to build fence accordingly. In this way the field was enclosed Fence viewers were voted in as officers under the law to compel people if need be to make and keep in repair a lawful fence. People who could not take their wheat to a Provo gristmill wore still grinding wheat in a coffee mill or boiling it and cating it whole with milk. These were busy days for every body making roads into the canyons to get poles to make fences. To get logs to build houses states and barns to sholter their steel through the cold winter months and provide hay for the owen and cous which was the necessary help to make their living.

The first marriage in the valley occured on Christmas day 1860. When Charles C. Thomas and Emmeline Sessions were married. They were married by Thomas Rasband. Another couple were married in the evening of that day at Center Greek, by Silas

. --7:--

moccasins made from buckskin also buckskin breeches. About 1872 a tannery was built.

All had log houses with dirt roofs and floors and open fireplace in one end and a chimney

A few lots and pans and a bake skillet to bake the bread in. Stools or benches were

made by splitting wide sticks and smoothing them with an a ax and boring holes to put the

logs. Table in much the same way. Of course as soon as they could get saved boards the

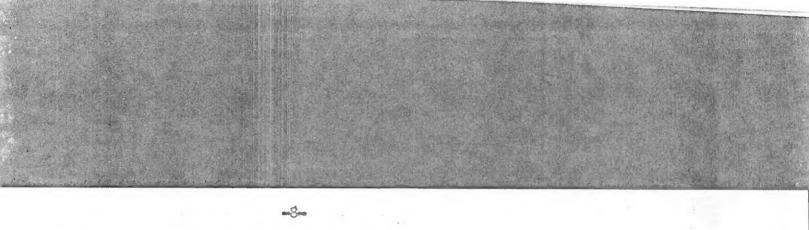

rough things were cast aside.

Up to the years 1860 or 1861 emigrants coming to Utah usually had to furnish their our ax teams and wagon with which to cross the plains from the Missouri river to Utah. But from that time till the railroad came into Utah men and teams were sent back from Utah each year to bring the emigrants across the plains. As many as 500 men and teams have been sent in one year nearly all ox teams with four yoke of oxen on each wagon. These teams were made up by practically the whole people. One man furnished an oxen or a yoke of oxen until four yoke were go togother and some man would furnish the wagon and some man was called to drive the team. It took about 5 months to make the journey there and back. In 1861 three men and teams were sent from Heber the men were Jesse B ond, Elisha ave-

In 1861 John Young a brother of Pres. Young came to Heber and organized the High Priest quorum with Elisha Averett as President of the quorum. In 1862 he moved away and John M Murdock was appointed he chose as counselors Thomas Todd and John Jordan and William Aird clerk of the quorum.

A few new settlers kept coming and a few became discouraged and moved away on account of the early frost and the population. Of course there were many hardships and trials that had to be endured by these who remained in making new homes in a new valley where the summers were short and the winters long and roads, bridges fences and ditches all had to be make.

The winter of 1861 and 1862 was an extra long one the snow fell to the depth of nearly 4 feet right in the valley. John Crook in his notes says sveral men went from here on snow shoes to the April Conference that year and the first plowing done in the valley that year was on the 4th day of May 1862. The Provo river was higher than it has been since and a new road that has been made the year before was mostly washed

out by the high water in the river that year.

The bill passed by the Utah legislature creating or organzing Wasatch County in Jan.

1862 so I was informed by the Secretary of State M H. Welling in Sept 1929. Our County records state that John W. Witt having been authorized called a special meeting in Heber on Feb. 22 1862 and proceeded to appointing the different officers required in a county organization. As select men Thomas Todd James Duke and John H. Van Wagoner. As assessor Hohn Harvey. As sherriff Shelligh M Johnson as county clerk Charles Shelton, as Treasurer Rohn M Murdock as surveyor John Sessions, as prosecuting attorney C. N. Carroll and as Superintendent of schools Thomas H. Giles. The Probate Judege who was John W. Witt. then divided the county into 2 precincts No. 1 and 2. All the county east of the Provo Riveer was designated asproceimet precinct No. 1 and all west of the river as precinct No. 2

As justice of the peace in precinct No. 1 Thomas Rasband with Zermira Palmer as constable, Norton Jacobs justice in precinct No. 2 and Sidney Epperson as constable.

In March 1861 Henry McMillian sen. was appointed road Supervisor for Wasatch County and Thomas Todd and John Duke as fence viewers for precinct No. 1 and Jeremiah Robey and John Fawcett for precinct No. 2 The judge's pay at that time was \$3.00 per day and the clock go \$2.00 and the select men \$150.

The spring being so late and the water in the rivers so high made it quiet late when the teams got statted back to the Missouri river after emigrants. Three teams were sent from Hober John Turner, Calvin Henry and Jacob were the teamster. Early in 1862 John H.

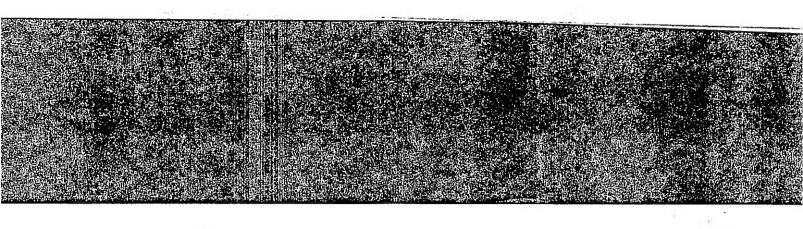

Van Wagoner finished building a grist mill at Sneke Creek lower settlement but it had no way of seperating the smut from the wheat so the flour made was very dark but people were glad to get it and while the river was so high that teams could not cross Henry McMallin built a boat and arraned it so grist could be sent and brought back in the boat.

Men helping on the other side. He also built the first saw mill in the valley William M Wall and James Adams were the owners. It was in Center Creek Canyon. The spring being late made the harves late also. But the wheat matured before the frost came. The reads being washed out so badly made it very bad going to Prove with a wagon and team neverticless a few more people kept coming here to make homes. Several emigrant families came that fall among which were Uncle Thomas Giles and family. The Lindsay and Montgomery families, Mark Jeffs and his father also. All come to make their homes here.

From the time the meetinghouse was built meetings were held regularly on Sunday and were generally well attended. All were members of the Church and full faith in the gospel and in their leader Brigham Young. So they enjoyed meeting together on Sunday in meetings but also in their dances and theatres. A theatrical Company was organized probable in 1860 of local men and women who put on very good plays to amuse the people often especially in the winter season John Crook, James Duke, C.N. Carroll and John Calligher were leaders in that line also John Jordan.

John Crook was the first choir leader and he held that position for many years and Thomas H. Giles was the first Superintendent of the Sunday School. The Deacons in those days chopped the wood and made the fires in the meeting house and that took real hard work in the winter months. The fireplace to keep the house warm during meeting time and also for Sunday school which was then held in the afternoon and the meetings in the forenoon. According to our County records the assessed valuation of the property in this county for 1863 was \$53,572.00 Which shows that we have made a wonderful increase in that line. Quite a number of our citizens are worth more than that alone and are still striving to get more. From the county records we learn that in 1863 William M Wall applied to the Rrobate court for a grant to use round valley as a herd ground for cattle and horses and the privelege was granted. Just about that time a mumer of others applied for and were given the privelege of useing Strawberry and other parts of the county for grazing purposes. At that time Wasatch County extended to the line between Colorado and Utah. That year more teams were sent back after emigrants but we are not sure as to who the men were who went back but think William Cummings and Thomas Galligher and one or two others went that year and as usuall the teams were made up by quite a number furnishing parr of the teams. People generally were very willing to help by this time most of the people had got floors in their houses and a few began to get shingles by on the roofs of the houses. A man named David Stevenson made shingles by hand w ich was a slow process. People were anxious to discard the dirt roofs as soon as possible.

As people were began to feel more safe from Indian attacks they began to move outside the city limits. A number of families had settled on Conter Creek as early as 1860 Also quite a number of Charleston and a few on Daniel Creek. There were also two settlements formed across the Prove river called upper and lower cettlements on Snake Creek. But at the

-10-

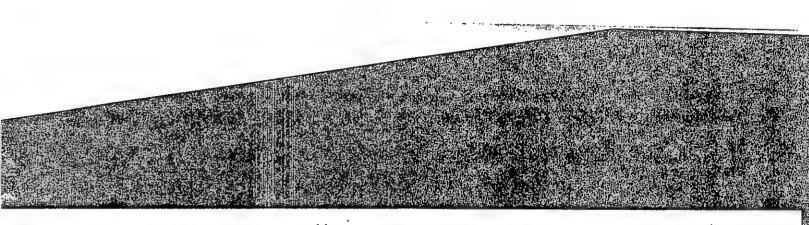

time of the Bladk have war in 1866 they moved together and called the new town Midway.

In 1863 the spring came carlier and crops that year were good and they were mostly harvested in August that year. Nearly a month earlier than the year before. However they still had a hard time to get their grain threshed with the kind of machines that they had. William P. Roynolds had brought another machine but it was no better than the other one. The grain still4 had to be deperated by hand with a fanning mill. Grain often had to stand in the stack all winter as they could not thresh when the deep snow came.

When The Johnston army that came to Utah and made their camp at Fairfield in Utah C ounty up to 1861 when the civil war broke out they were disbanded and most of them hurried back to the state to take part in the war. Most of their wagons were left in Utah and sold very cheap and many of the people here were supplied with these government wagons they were heavy and strong and all right for canyon work with exteams. Some of the soldiers on their way to the states with teams came up Provo Canyon and passed through Hober and while in Heber they buried the body of a woman in a shallow grave near where the Jeffs hotel now stands. It was supposed they had killed her to get rid of her in their madrush to get back to take part in the war. Quite a number of young women were ruined by the soldiers while they remained in the territory. Of course in other ways the people of Utah were benefitted in a temporal sonse.

The year 1864 was an average one for crops of all kinds. The Indians although visiting quite often in the summers were peaceable and friendly. Of course some stock on the hills went missing at times and people had good reason to believe the Indians took them. The men called to go back after emigrants that year as far as we can learn were George T. Giles Isaac Baum John Muir, and Oscar Wood. A few more settlers kept coming each year so we kept gaining somewhat in population as the years went by. About this time horses and makes began to be used as teams although very few of the horses weighed more than a thousand rounds.

Very little coal had been used here up to this time as wood was plentiful some of it hard wood like oak, maple and mahogny and it was 35 miles to Coalville where coal sould be got. About this time also quite a number of people sent back east for cooking stoves by men who went back on purpose with teams to bring freight of allkinds for themselves and others. They got tired of the bake skillet and the fireplace Jesse Bond, Thomas Nichol and James Shanks were men who went back after freight. It was several years however after this

-11-

before either those teams or cooring stoves came into general use here. A wagon with a spring seat in it was quite a novelty and up to that time light spring wagons and carriages were seldem seen in this section of the country. There were probably a few of t ese in or near Ealt Lake City.

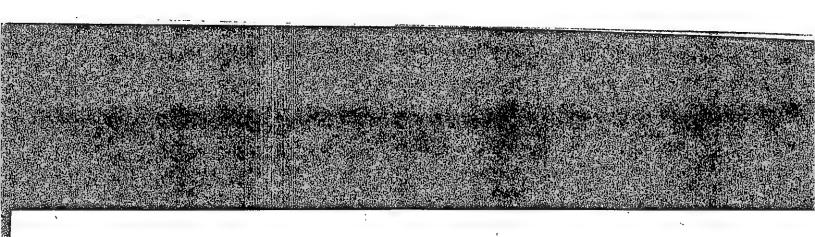

The first stone house was built in Reber in 1863 or 1864, It was built by John Hamilton John W Witt built one soon after and it is still standing at 3 north and 2 nd west. In 1864 work was begun on 2 stone school houses called the upper and lower school houses. The upper stood where the first ward meeting house now stands. It was finished in 1865 and was used for years as a meeting house as well as a schoolhouse. The lower schoolhouse was built just south of J. Witts and school was kept in it for many years also finally it was taken down. To make a lit be money or store pay people about this time began to hall bark, fire wood stone flags and other things to Salt Lake City but it took four days with ox teams to make the round trip.

John Crook and William Forman owned the Lake Creek Quarry and furnished dimension stone of all kinds to Salt Lake City, for many years before cement came into use in Utah.

In 1865 Pres. Young and party visited Heber for the second time he had visited here in 1863 and he always had timely counsel to impart to the people. When people learned of Fres. Youngs coming everyone turned out a day or two before to fix up the bridges and throw all the stones off of the readway and whitewach their log cabins. His visit was the cause of much work being done on the reads. Of course at that time every man between the ages of 18 and 50 were required by law to pay a poll tax of two days work on the reads each year but reads were still bad.

In the spring of 1865 Charles Shelton was called on a mission to Canada. He is said to be the first missionary from this county. That year also Moses Cluff built a carding machine building near the gate that opened into the big field. And the machine proved a wonderful help to be people who had been carding the wool into rolls by hand for so many years. Which was a very slow and tedious process.

Quite a number of new settlers had made homes in Round Valley and they named it Wallsburg after William M. Wall. Quite a number also had settled down at the Charleston after Charles Shelton who is said to have built the first house there.

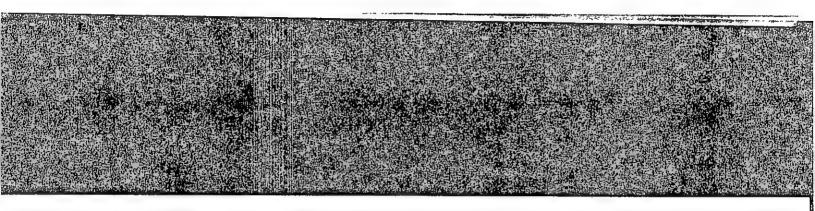

--12-

Men and teams were sent back after immigrants but we do not know their names. Much work was done on the Provo Canyon and other Canyon roads and also the road toward Salt Lake City. There has been a question as to who represented this county first in the Uthh Legislature and a letter of inquiry was sent to the Secretary of the State of Utah some 3 weeks ago and no answer has been received. John Crilk claims to know that Joseph S. Murdock was the first. Others claim to know that William M. Wall was our first Representative. Up to this time and on to 1870 there was no regular government mail route to this county. Mail however was brought probably twice a wask in the summer time from William H. Kimball's Ranch. to Heber. Isaac O. Wall carried it on horse back. No Mail in the winter at all.

It was in the fall of 1865 that the Black Hawk war started in Sampete County. It has been said that a drunken man pulled an Indian off his horse and that it was the cause of the Indians going on the warpath. This Indian was the son of Arrapohoe a chief who had just died and it made the Indians mad and was made a protext for starting a war in which 70 white people were killed. A chief named Black Hawk was their leader in the war however in the spring of 1866 a larger number of teams and men were sent after immigrants that year. Robert Duke , Josep h Moulton, Orson Hicken, F.A. Fraughton, Ross Boren, George M. Giles and Martin Oaks went that year we believe the Indians started in the spring to make raids in Sanpete and Sevier Counties and killed several men. The settlers in turn organized in companies and followed and killed some Indians and then the war was on in earnest. The Territorial Millitia were called out to go to Sanpete and Sevier to help the people to defend themselves and their stock and if possible stop the war. Knowing that this valley was near the Indian Reservation and that the Indians would be sure to make raid on our stock Colonel Robert T. Burton and David J Ross were sent here to organize May 26, 1866 and enroll all the available men in this valley into companies with all the officers necessary to put them in shape to protect themselves and their animals. After Colonal Burton had appointed all the necessary officers and given them their authority to act he called the men together in a hollow square and said now your are organized on a war footing do your best to defend yourselves and your stock. Burton was sent here by Daniel H. Wells who was at the head of the Territorial Millitia a appeal had been made to the United States Army to quell this uprising by General Wells but he was told the Territorial Millitia would have to defend the people. John W. Witt was appointed Major of all the Millita

-13-

in the county and Charles Wilchen Adjutant. Who M Wall Captain of Cavalry Company a Major of Infantry John Hamilton and John Crook adjutant. Thomas Todd Captain of Company B Infantry The Silver Grey company with John Galligher Captain and Wm. P. Reynolds adjutant . The liidway cavalry company with Sidney Epperson captain and the Infantry company with Ira Jabob as Captain. The Center and Wallsburg people were order to move to Heber and the charleston people to move to Midway and new location of the 2 Snake Creek settlements. This was kept up for 2 years and until the war was over. On the 27th of May 1866 a company of 24 men under Captain Wm. M. Wall with 3 wagons loaded with supplies started for the Reservation. They also took about a hundred head of boef cattle as a present from Pres. Young to be given to the Indians as a peace offering if they would accept them and stop the war. But if not to give them the cattle anyway and tell them the Mormans wanted peace and did not want to kil I any or the Indians but be good friends. Perhaps a few extracts from a speech delivered by Joseph McDonald who was one of the men who want at a reunion of the Indian war Veterans heldat the Turners Hall in 1908 will explain the situation at that time. He said he was one of the men who went with Captain Wall to deliver those cattle to the Indians and they sarrived at the Agency Block houses on the west fork of the Duchesne river all rigit and found 2 or 3 government men there but very few Indians mostly squaws. Rlack hawk and his war rious were farther south. An Indian runner was sent to tell him that Captain Wall and his men had bro git a herd of cattle as a present from Pres. Young with his best wishes and that . e hoped the Indians would accept them and make peace and all be good griends again. Chief Tabby who had aliwys been friendly and peaceable had been persuaded by the other Indians that they had been greatly wronged and he told Captain Wall when he came in to tile Agency that he was mad and that he thought it would be good for blood to run and that it was going to run when his Indians came in and he warned them to prepare for trouble. Brother McDonald said when Captain Wall told them what Tabby said they went to work to prepare themselves as quickly as possible and that it was wonderful what a few men could do to protect their lives in a very short time. A well was dug close by so they could get water and wit! a largeauger they bored port heles in one side of the Block house so they could shoot t rough t. em if need be to defend tienselves. Then they built a strong corrall around the cattle close by so that the Indians could not take them by force. This condition lasted some 3 days. They learned too that the Indians had taken all their squaws and

-14-

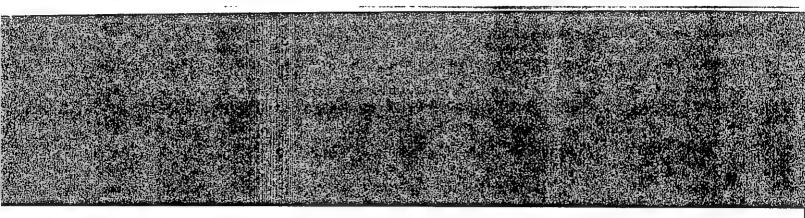

emong the ceders and f nally trey came to a standstill. Chief Tabby then sent an Indian to tell us he was coming quickly with ten or twelve Indians and that he could not stop them from shooting until we were allittled. We told him to tell Tabby we were ready and if they came to fight we would shoot tom. There were 275 Indians close by and they circled around the Agents cabin a few feet away. Tabby got off his horse and went into that cabin. While he was in there an Indian shouted and all the Indians ran into the cedars again, Captain Wall then said I'll go to the other cabin and talk to Tabby and don't any of you go out while I am gone and don't let any Indians in here. He talked for 3 hours with Tabby and agreed to meet him again the next morning to decide whether it was to be peace or war. Next morning Tabby brought some Indians with him and Captain Wall talked with them nearly all day. Finally Tabby said he would make peace if we would kill a man in Sanpete named Sloan. Wall of Course would not agree to this and after some more talk he agreed to take the cattle and make peace as far as he was concerned. That evening it was my turn to stand guard and the Indians began to shout and yell as they stood around around their camp fire and all seemed to be very much excited. I reported to Captain Wall that t ey surely intended to kill us. When Tabby heard this we went to their campfire and said what's the matter with you Indians you know I have made peace with the Mormons, stop your shouting. Tabby told us in going home to keep right in the wagon road and go as quickly as possible as he was afraid his Indians might shoot us as he could hardly restrain them right there. When we got home we learned that the people had become alarmed on account of our long absence. A comp any had been formed and were ready to start out to find us as agreed on before we left Heber if we did not return in a reasonable time we had been gone 12 days. Our men at that time risked their own lives but all proved brave and true.

Co lonel Head Indian Agent went out with us and he rather encouraged the Indians in not taking the cattle as a present from Brigham Young and even tried to buy the cattle for the government and let him give them to the Indians but Captain Wall said no sir you can't buy them they are Mormon cattle and if they eat them they will eat Mormon beef.

Another thing that caused anxiety in the minds of the people in Heber while these men were gone is this. On their way out they had stopped to eat in Strawberry valley and had tied their horses with the saddles on them to trees and their guns tied to the saddles. One horse

triedeto roll over and the gun on its seddle was dischare and the bullet killed the horse and wounded another in the shoulder so it could not be used. So it was turned loose and in a day or two came to Reber in that condition. Not knowing how it happened some thought we had surely been attacked by the Indians and may be all killed as the horse came home alone. and it was known to be John Acomb's horse that was known by nearly every body. The name of these men deserve to be remembered they are Wn. M Wall, Joseph McDenald, George Carlile, Wh. B. Sessions, Liram Oakes, Jeseph C.M. Carroll, George B onner, Nymphus Murdock, Wn. Forman Standey Davis, Stephen Taylor, Patrick Carroll, Alma Runtington, Wm. Giles Jr. Ephraim Van Wagener, Edwin Brunson, Jod Robey, Zele Bates, Emmanuel Richman, James Carlile, John Acomb's and Stephen Moore. As teamsters D.A. Morriz, Willard Carroll and Isaac O. Wall Indian Agent Head also went and came back with them. Chief Tabby probable did what he could to restrain the Indians but the Young Indian warrlors all preferred to follow Black Hawk and they hopt stealing and killing for 2 years.

Another exidition was sent out with supplies for the Indians in July 1866. They delivered flour, bacon, sugar and other things. Saw very fow Indians and had no trouble. They were gone 3 days. John Hamilton was in charge. It was while this company was gone that Thomas Landley's oxen and a cow were taken out of his corrall in Heber by Indians. These Indians had come over the ridge from the Reservation the day before and our Scouts had seen . cir horse tracks and came to Heber to report even before the Indians had really stolen the cattle and men were under orders to jo out in parties of 4 men and to start so t hey could get into the hills before day light and if possibele capture the Indians. Knowing their purpose was to steal and perhaps kill somebody. While our men were preparing that evening the Indians came right into Heber and drove off Handley's oxen and a cow. The men went out as order on horseback and one of the parties struck the trail of the Indians driving the cattle. Andrew Ross, Joseph Parker, Isaac Curmings, and Sidney Carter were the men that followed the trail right over the ridge and away down on the Duchesne river. They sun smolte in a bunch of trees and left their horses and crawled up carefully and saw and Indian sitting on the cow which had been billed and they shot him dead. Two other Indians started to run and they wounded on but both got away. Our men thentook the horse the Indians had ridden and the owen and got back towards home knowing that more Indians were not far off.

-16-

Thomas Handley was in one of the Parties ordered out and was very much surprized to see his exen brought up from the Ducksene by these men.

John Hamilton was major of the Infantry companies and John Crook was Adjutant and be it was he who wrote practically all the rolls of Officers and men from the orginal copies, Also all the information we have with regard to these expeditions and the Indian troubles in-ea carly days in this walley. W.M. Wall was a favorite leader with his men in those expeditions and was also respected by the Indians as a brave men. While the Cavalry did most of the fer of expedition work the Infantay did most of the guarding building stockades and etc.

Mon were not allowed to go into the Canyons without being in a company of ten or more and one placed on guard. When ever it was necessary to call the men together the drum was being beat was the signal for all to gather on the public square which was then on John W. Withs blod:. There is where they met to drill also at times and get instructions. Men were required to stand guard quite often and were liable to be called away from home enytime. Those were days of dread an! a xsiety for women perhaps ever more than the men, lmowing that their husbands and sons ere continually exposed to danger.

Reports were coming here every few days of med being killed by the Indians in Sappèse or Sevier counties and stock being run off,

Bishop Joseph S. Murdock is entitled to much credit for the work he did at that time. he was well and favorably know among the Indians on account of his having raised an Indian girl a d narried her. He used every influence in his power to get in touch with the Indians and persuado them to make peace and stop their stealing and killing the Mormons who were really their best friends. In 1867 he nameged in someway to get in touch with Tabby and a few of the smaller chiefs and invited them to come to Heber and bring their square and papeoses with them and Tabby. Douglas Fokawanor and some other India s came and brought the squais and papeoses. An ox was killed divided among them and a big feast prepared in a bovery built on the lot4 owned by Elizabeth Carroll later. They all seemed to enjoy the feast and weak base, to the reservation feeling good and carrying a part of the beef also flour, becon and other good things with them. And it is believed that had a good influence with them and older Indians made them more friendly with the people in this valley at least. As fou if a y raids were made after that. It had always been the policy of Pro. Young

bottor feed the Indians than fight them. However there were 70 white people killed during

that war and probably more than that number of Indians....

There is another incident in correction with his war and that so id be pu on record as rela ed by Al. Huntington himself to the writer.

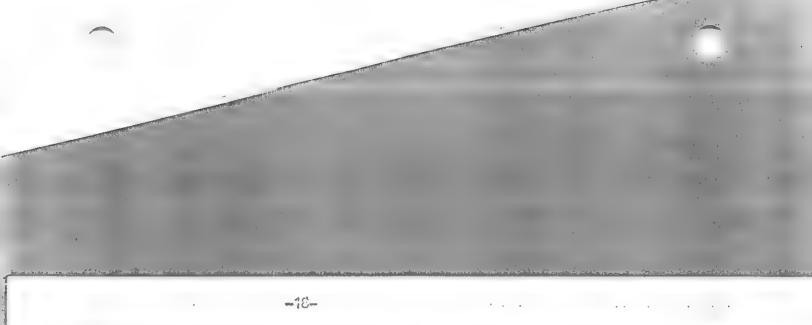

Quite early in the spring of 1366 he said Pro. Young asked him as an Indian interpretor to go out alone to the Indian agency on the Reservation and if possible provail on Black bath t to stop stealing and killing and make peace and tell him Brighem had sent him to try to stop blood from being shed and he told him he would promise that the Indians would not bern him. So he went alone to the Agency and the Indians were surprised to see a man come alone right in amongst them. Black Hawk and most of his warriors were not there but those that were there were very mad and gathered about him in a threating macher. He delivered his message but it was no use they were all mad. He said he sat down and cocked his 2 pistols and stopped trying to talk. Just t en a runner had brought word that Sampitch a chief had bee been killed by the wiites and his squaw came up shouting kill the Morma quick I want to eat his heart while it is warm. They were all excited and he expected them to bill him every minute but Brig am had promised the Indians would not harm him. Finally Souistte and old blind chief stepped into t's circle and said you Indians ought to be ashamed you are like coyotes Cathered around a sheep ready to eat it up. This is a brave man he came here all all no to tell us Brighams don't want to kill Indians he wants peace and you all know he is our Triend. The Indians slunk off one by one said All Runtington a d I got away as quiely as possible and hors I am. He told me this sory in Joseph Murdoel's decryard in Mober, There were object present at that time.

There were no teams sent after emigrants in 1867. But a turberof men and teams were called to have granite blocks from Little Cottonwood quarry to the Sala Lake Temple block. This was in October of that year. It took 2 days with ox teems to get a load going and colling. In the summer 1967 Joseph Murdock was called on a mission to go down in Southern Ulah to try and raise cotton and Jo'n W. Witt acted as Bishop for some time.

Rober grist

mill was built in the summer of 1865 by R. T. Burton and Brigham Toung jr. and was a great improvement on the Snake Creck mill and was much more convenient for a majority of the people.

In December near Christmas time Abram Hatch and family arrived in Heber he had been erdained a Bishop and was sent here by Fres. Young to take the place of Joesph Murdock.

It happened to be a very cold ramy time just then and 3 non went to help them through the Prove Canyon. They were Wh. Averett, Rebert Lindsay and Orsen Ricken. Bishop Natch after looking around some chose Thomas h. Giles and He ry S. Alexander as his counselors the same after his arrival he built a very good stone house on Mainstreet and kept a store in part of his residence. A number had kept small stores before this time. There was John W. Witt, Carter and Millers Store. Jacob Harris, Alenzo Clyde and Mark Jeffs and all cacepu lark Jeffs quit the business soon after Bishop Natch started. But Nark Jeffs and Bushop Natch were competitors in a business way up to Bishop Natches death.

Larrance or North Platte the U.F. railroad was then built that far on the way toward Utah. The immigrants came to the end of the road. Mr. Moulton, Willard Carroll, B.A. Norths and Mr. Lindsey were called to draws beauts and Emmanuel Richman, Brighem Hamilton and solar Van Wagener from Midway and Goorge Honkes from Charleston. They went back in Captain John holman's brain which was the last church train to cross the plains to Utah. This was also a grasshopper year the grasshopper so had come and laid their eggs the fall before in 1300 they hatched by millions and cat up all the grain sown that year.

The railroad had been surveyed right through Ogden and Brigham contracted to build 100 miles of the read and let subcontracts to others. There was big prize offered to the reflicad company that completed their road to Ogden first. The Central Pacific were beilding from California and both were anxious to win the prize and were willing pay good wages or let good contracts. So practically all the men from Heber went to work on the railroad to carn means to buy their bread and other things seeing that they could not make crops on account of the hoppers. Uncle John Harvey took a contract of several miles in Echo Canyon and most of the Heber men went to work on it. They were glad to find work to carn means that year. Many of the men worked till winter set in. Man with a seem were paid \$10.00 per day in Cetober and Nevember, working for the company at the head of Echo Canyon.

Here is a little some one of the men composed that was often song by the men in their camps around the campfire.

At the head of great Echo and the railroads's begun And the Mormons are cutting and grading like fun =19-

They say they'll stick to it until its complete. Their friends and relations they long for to meet.

Gio. Three cheers for our contractor his name's Brigham Young
Hooray Hurrah we're honest and true
And if we stick to it its bound to go through

2nd Now there's Colonel Rood he's a gentlemen too

Ke knows very well what the Hormons can do

Fe knows in their work there happy and gay

And are just the right boys for to build a railway

2

Although we as were high at that time other things were high also flour was \$10.00 per hundred pounds and a box of matches 25¢ Caliel 75¢ per yard, sugar 25¢ per pound and other things in perpertion. When the railroad did get through things were a little changer but not much for some years. Farmers the had any hay to sell could get from \$75.00 to 100.00 per ten delivered at Echo Canyon along about Christman. John Crook did manage to raise a little wheat that year.

The Union Pacific railway wen the prime by getting their road completed to Ogden entity in 1869. Then kept building forther west and the two railroads met at the Promontory at the north end of Uta's Inland per. Jeseph Murdock who had been our Representative to the Utah Le islature having moved away Abran Letch was elected to take his place. While he was our Representative movement was pit on foot to charge the boundaries of Wasatch County on the SouthHead on the North.

The Ontario mino had been discovered and some offer minos and the Schrit County people robed that their county be extended wouth to Prove river at the Hailstone ranch so as to take in all that range of mountains. And Wheh County as of their north boundary to changed to Dive nore range for the stock from the North fork of Prove river up to Door Greek. Each county had pathered considerable strength in support of their claims and of course Representative that the fought against both changes but its arguments scened of no avail. Finally to get the Choor again and said "Gentlemen it seems my protests are all in vain but we of Wasatch County will have the satisfaction of being in a similar condition to the Bavier who was crucified between two theires. This little speach won the day and the boundaries were not

*#Jii -20-

clarged. If they had been we would not have the Fark Utah mine in our county that is such a great help in many ways.

About 1870 Bishop Natch become Probate Judge of Wasatch County and held that office many years. He was a very strong advocate for improvements of all kinds that were for building and latterment of the community he used the people to build better and more convenient homes. To make better roads and get better teams and wagons and he especially favored better schools for the children.

A could from the Prove River had been talked of before he came but little had been done towards building it and he had to canal surveyed high enough to bring the water into the rill pend and he agreed to help build the canal for the use he would get of it for the mill and of course everybody was urged to help on the canal which has been a great benefit to the eltimons of Rober and vicinity.

While Dishop Notch was in the Logislature he introduced the bill that have us free schools and also the bill diving the franchise to women. He also set a good example in planting finit trees and shade trees. However John Crook, Fred Giles and James Sharks had planted fruit trees before Bishop Fatch came. William Chatuin and J. J. Sholton were the chief school teachers in those early years.

Early in 1871 we got our first scal weekly mail service it was carried from Prove to Echo by way of Kamas passing through Rober twise each week.

Joseph S. Murdock had returned to Heber and he had the first contract on that line for some years. Just before Bishep Latel went to the Legislature he appointed four men in each quarter of Heber to have special care over their part of the tour. Their names were Elisha Jones sen., Thomas Rasbond, Thomas Ficken Sen., and Vm Forman. They were morely expected to help while Bishop Ratch was absent.

About 1874 the government had all the tillable land in the valley surveyed in to quarter spections and all the land was required to be entered in the land office in Salt Lake City as l'enesteads. This caused quite a sir succest the cli settlers as they had taken up their land in ten and twenty acre plots a dipail the surveyors fees. Now some one had to enter the acre in Homesteads of 160 acres each and then he in turn gave a deed to each on for the number of acres he owned in the Eccestead.

About 1872 or 1873 the social hall was built on Main Street where the Dixon Taylor

-21-

Store now stands it was used for meetings, Sunday School, Dances and threatres for years and served its purpose well for many years, it was built by subscription and \$50.00 was a share. It paid not dividends.

The Wasatch Stake was organized by John Taylor and Franklin D. Richards July 15th 1877 with Abrah Batch as Pres. and T. E. Giles and H. S. Alexander as counselors, and Charles Shelton as Stake Clerk. The high Councilors closen were Joseph S. Murdock, Wohn W. Witt, Isaac Baum, John Murr, James J. Rowe, John McDonald, Custavus Johnson, Henry McMullin, George W. Brown, Attawell Wootton, Henry Class and Daniel Rigiow.

Heber was divided inot 2 wards all east of main st. was called the east ward and all west of main at the West Ward. Thomas Rasband was ordained as Bishop of the East and he chose John Muir and Harmon Gulmings at his counsolors. Win Forman was ordained a Bishop of the West Ward he chose John Crook and George T Giles as his counselors. John M Murdock was rotained as Rresident of the High Priests Quorum with John Jordan and Thomas Hicken co. as his counselors. Thomas Todd Fresident of the Elders Quorum, Orson Micken and Henry Ohlwiler as counselors. Phones Rasband to preside over the Priests and Wm Forman to act as agent for Bislop Hunter then presiding Bishop of the Church. J. Heber Moulton president of the Deacons, David Van Wagener Bishop of Midway John Watkins and Alva Alexander counselors, N. C. Murdock Bishop of Charleston Enoch Richins and Edward Buys Counselors, W. E. Naticall Bishop of Wallsburg J. C. Parcell and Francis Kirby counselors, Benjamin Cluff Elishop of Conter John Harvey and John WR Baird counselbrs, Forma Brown Stake president of the Rollef Society, Mary Daybell and Sarah Alexandor counselors. John Moon as presiding Elder at Woodla: d or Bench Creek. The Ashley country was included in the Wasatch Stake and Pres. latch in company with some of the Apostles visited them at times during the summer months each year until they became a Stake.

Midway, Charleston, Wallsburg and Conter had presiding Elders who took charge before this time. As early as 1800 ene new threshing machine were brought into the valley by local den. Isaac Baum, Broadhead and Lee some of the Giles each got one and they were a great like to be farmers as they separated the wheat from the chaff and threshed twice as much in a day and did away with to old Farming hill entirely. Moving and reaping machines were brought here about 1864. The first reapers were very different from the self binders that

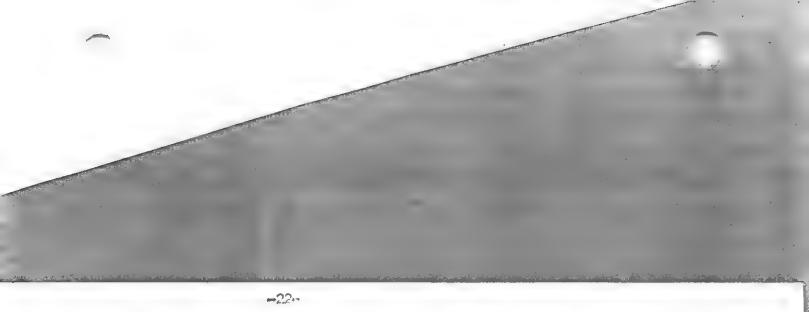

-22-

and in use now. A man had to cat on the machine to push the bundles. Of course it was an improvement from the old way. The old BuckeyeSemior rackine anyway transferred much of the harder work from the man to the force and still left him planty to do. The hay rake drawn by a horse was another great help. Then came the Bull rake and Derrich also the Sulky play and patent harrows. The farmer may still think his let is hard but his is not a snap expospered with 60 or 70 years a.o. The same may be said of womens work in the home Jost Wink of Se log and open fireplace, water had to be carried from the ditch, wood from the modpile no cost. Log buts, dirt foofs and dirt floor a bake skillet to cook bread in. No proves, candles for lights, stools to sit on . No washing or sewing washine or electric lights or franc, no both tubs or toilet reitler cold nor hot water, very few dishes of any lited and often a broom made of negotrurh. And all those wonderful advantages we now have I on ours we are not as happy and contented as were then. Saying nothing about our troubles w with to Indiens, grans hoppens, poverty sed other trings the Pioneers of this valley had t. contend with. Tot each of us be our our judge in this matter. Very few men were sent out from here to preach the goopel. Charles Shelton was sent to Canada in 1865 he was the Throt I bolinove N.J. Nurdeek and .J. Whrg later went to the United states and John Huber to Suitmorland. These I believe wire the first. About 1879 or 1880 a mutual Improvement a succeivation was organized in Leber with Roberts S. Duke as prosident. Heatings were held is the Tithing Office which this built about 1872.

Join Calliger was the first Postaster when the semi weekly mail was started between 1.000 and Beho. Join Witt had delivered mail that came by way of Kinball's mail station up to that time. The mail at this time was carried through the walley by borseback. A very first broad and nows papers who semi through the mail at that time. The Desert News was the only paper and it was printed weekly at that time.

About 1890 the Control School house was built and Heary Aird and Wm Buys were among the ... at prominent teachers there in carry days and there have been many very good teachers since ... as of when have become prominent teachers in Higher Schools of the State of Utah.

The New Wes or Congregational Church sent teachers here and kept a small school free of charge for many years and finally built a fair sixed school house in Heber but it has not proven a success in any way and stood cropty for many years and burned down in 1937. A Church school was started here in Heter many years a o and Brother Enoch Jorgensen, Attawell

and in use now. A man had to aft on the machine to push the bundles. Of course it was an improvement from the old way. The old BuckeyeSonior machine anyway transferred much of the hardest work from the man to the horse and still left him plenty to do. The hay rake drawn by a horse was another great bely. Then came the Bull rake and Derrick also the Sulky plow and patent harrows. The farmer may still think his lot is hard but his is not a snap employment with 60 or 70 years ago. The same may be said of womens work in the home Jost Which of the log and open fireplace, water had to be carried from the ditch, wood from the modpile no coal. Log buts, dirt foofs and dirt floor a bake skillet to cook bread in. No ptower, candles for lights, stools to sit on . No washing or sewing machine or electric lights or irons, no both tubs or toilet reither cold nor hot water, very few dishes of any kind a d often a broom made of segetruch. And all these wonderful advantages we now have I on care we are not as happy and contented as were then. Saying nothing about our troubles w with the Tudlens, grass hoppers, poverty and other things the Pioneers of this valley had to contend with. Not each of us be our own judge in this matter. Very few men were sent out from here to presch the gospol. Charles Shelton was sent to Canada in 1865 he was the Plant I boliove N.J. Murdock and .J. Wing later went to the United states and John Huber to Duftmorland. These I believe were the first. About 1879 or 1880 a mutual Improvement s succelation was organized in Labor with Rabarta S. Duke as president. Meetings were held is the Tithing Office which was built about 1872.

Join Galliger was the first Paphaster when the send workly mail was started between Trove and Ecke. John Witt had delivered rail that came by way of Kinball's mail station up to that time. The mail at this time was carried through the walley by horseback. A very far latters and news papers were sent through the mail at that time. The Desert News was the only paper and it was printed weekly at that time.

About 1890 the Contral School house was built and Heary Aird and Wm Buys were among the toot prominent teachers there in carly days and there have been many very good teachers since to of when have become prominent today as in Higher Schools of the State of Utah.

The New West or Congregational Church sent teachers here and kept a small school free of charge for many years and finally built a fair sized school house in Hebor but it has not proven a steeces in any way and stood cruty for many years and burned down in 1937. A Church school was started here in Heler many years at a end Brother Enoch Jorgensen, Attawell

-23-

Westton and II my Brin each taught in the old Carter building it was closed for the lack of patronage.

The county Courtlouse was built while President Latch was Probate Judge from the taxes of the people he did not favor benuant as we usually do now. The Central School was built also from the taxes.

The first steem Enwill in the county was brought here and operated by John Turner and Phones Bicol It was set up first in Center Creek Canyon and was a great benefit to the people in building homes, barns and sheds and it furnished labor for men and teams hauling timbers and humber to Park City and the mace near by. Mr. Moulton also started a milk reach and butchering business that furnished a market for boof, mutton and other farm products and also labor for quite a mamber of our young people. Fark City and the mines around there was a factly good market for hay, case, butter, eggs and potatoes and money began to be more plentiful and people could make more improvements in their homes and in their general condition of living from that time forward.

Test Watson we believe man the first dully stage between Meber and ParkCity. Later Lule and hatch took up that business and also the Murdock brothers later E. J. Duke engaged in the business and finally got contract from the government to carry a daily mail between Park City and Reber and he has held up that business up to the present in all sorts of weather eiten in very cold disagreeable weather. Prices for farm product were very low at this time. Wheat Sold as I was 60¢ per bushel and hay 10 to 12 dellars per ton in Park City Butter and eggs 25¢ to 30¢ and potatoes 35¢ to 50¢.

The stake tabernacle was beilt in 1836 and 1837 and cost near \$30,000.00 it was built by donation all the people in the stake donating their quota towards building it. Prese hatch superintended the building of it. Elicha Averett was in charge of the Mason work and Alex Fortice of the carpenter work and Francis Kir y did the painting. It was quite a big under taking for the people of the Some at that the purpople of the stake at that time people of the people contains were ready and willing to do their state. The nectings and Sundays schools of both wards were held together in the Stake house up tall 1902. It was about 1825 when need of the reids were made on the polygonists only 2 ren from Heber John N. and Joseph S. Hurdock were sent to prison John Bube Lot off with a fine and others were assisted to

-21-

Loop out of the way of the deputy marshals. Joseph Meulton went on a mission and later took part of his family to horizo until the storm blowel over. Many of our best people were sorely persecuted and junted about that time.

On the 29th of September 1899 the R.G.W. railroad from Prove to Reber was completed and a big celebration of the event was held. This has proved a great benefit and blossing to the people in many ways especially to tose who ship sheep and cattle. There is said to be from 140 to 150 thousand lambs shipping point for sheep in this western country and this country has the best sheep range anywhere.

The Sunday School Jubiles of the Church was held in 1899 and the report of all the Sunday schools was printed in a book and the Heber Sunday school report is as follows:

The begun in May or Jule 1862 in a log house, moved to a stone house in 1866. Then to the Social Ball in 1874. It begun with 6 officers and toachers and 40 pupils in 1899 it had increased to 424 pupils Thomas H. Giles first superintendent from 1862 to 1868, John Galligher from 1868 to 1876. S. J. Wing from 1876 to 1879. Henry Clegg from 1879 to 1894. William Midsay 1894 to 1902. First assistants John Horrocks from 1863 of 1894. Robert Duke from 1894 to 1902. Busonds assistants Fred Giles 1868 to 1894, John T. Giles from 1894 to 1902. Secondaries F. W. Giles from 1884 to 1896. Jennie McMullin from 1896 to 1897. Notice Myors from 1897 to 1898, Annabell Mardock 1898 to 1902. The historical report shows that Joseph Moulton, J. H. Moulton and John H. Murdock have been Sunday School workers 50 years. Fred Ciles and John Horrocks, Ellen Lee Robert and Vm. Lindsay 25 years and Ann Marvey 25 years.

John Crook was the first choir leader in Heber followed by Alex Fortie, Roger Horrocks Dany years then Josep h A. Murdock John H. Hurdock Levi C. Montgomery Frank Epperson and Storm McDonald.

President Hatch and his counsolors Thomas H. Giles and H. S. Alexander worked together 34 years first as a Bishopric and later in the Stake Presidentcy.

The re-organization of the Masacch Stake of Zion. President Hatch had requested to be released and on the St. day of Feb. 1901 at a stake conference held in Heber at which F. M. Lyman was present. President Hauch was released with a vote of thanks for his faithful labors and Wh. H. Saart who had come here with Apostlo Lyman was voted in as President of this stake

of Zion by a unaminous vote of to people. The high councilers and the Eishops of the wards were all released and a complete organization of the Stake followed. Joseph R. Murdock was sustained as first counselor to reside it Smrt. Thomas E Giles and H. S. Alexander, Jo n McDonald and Robert S Duke were voted for to be ordained Patriarch's. Attawell Wootton , Wa. Lindsay, Joseph Moulton, harmon Currings H. L. McMillin, John Halbur, John T. Giles H. W. Harvey, Jos. A. Rasband, Jacob Probst A.Y. Duke and Levi Montgomery as high councilors Robert Lindsay, John W. Crook, J. C. Hurdonk and John A Fortheas Alternates, Robert Duke as Bishop of Heber First Ward with Orson Hicken and George Wootton as counselors, Wm. Dayboll hishop of Charleston J.M. Ritchie and George Price as counselors. All those officers pledged themselves to keep all the laws of God and to set proper examples before the people and to uphold and sustain all those over the in the Priesthood. The voting was unanhanous in sustaing all these officers. Apostle Lymna urged all the brothern to be faithful and diligent in all their labors and trey would be blest of the Lord. President Fatch endorsed all that had been done and was followed by Fres. Smart who accepted the responsibility placed upon him and said with the help of the Lord and the cooperation of the people ho Loped to carry on the work of the Lora in this stake of Zion and organization and himself included.

Extracts from a brief history of the Heber Relief Society compled by Carlie Clagg
Tidwoll who was Stake Secretary for some years. The first Relief Society in the Wasatch
Statke was organized by Eishop Abram Natch at Heber June With 1869 with the following
officers and teachers as President has. Hargeret Mair. As her counselors Ann Murdock and
Mary Hebbildin secretary Ann Harvey Treasure, Abelia Callagher, As Teachers and members
Ellen Glegg, Jane Glotworthy, Catherine Ponnen, Hary Mortgomery, Melisca Reynolds, Ellen
Lee, Ellen Howarth, Elizabeth Campbell, Mary Duke, Sarah Smith, Jane Match, Margaret Todd, Ann
Richardson, Sarah Moulton, Christina Hindsay Mar, Marie Skog, Annie R. Duke, Harnah Micol,
Sarah Young, Gatherine Hicken, Sarah Sections, Louisa Johnson, Agues Turner, Ann Price,
Jane Murdock, Meziah Carroll, Margaret Carroll, Mary Taylor, Catherine McMaight, Christina W
Melson, Mary Myros, Margaret Stevenson, Mary Croo, Elizabeth Rasbund, Marion Meil, Issabella
Hurdock and Helisa Faum. Thus organization continued until 1677 when Lober was divided into
two wards. Maire these sister were in office to a Relief Society hall was built. It stood

-26-

on the Northeast corner of the Tithing office block and was about 40 ft by 20 ft. in size and was used for Relief Society Meetings, quilting socials and dances, They built a granary close by in which they stored their whoat. There was no change in the officers of the Society for five years at which time tister Mary Mehallin was released and Jane Hatch chosen as counselor to sister Muir. No farther changes were made until the division of the ward in 1877. At that time they had a considerable amount of wheat stored in their granary. Margaret Muir was retained the president of the Meber east ward Rolief Society at its organization with Edizabeth Rasband and Margaret Todd as counselors, Ellen Lee secretary and later Eda Johnson became secretary. In 1895 Sarah Mond became president and Hannah Nicol and Betty Peterson were her counselors. Mary Ann Cumings treasure and Eda Johnson until on Feb. 14th 1901 Sarah K. Bridge became President and Mary A Cumings and Augusta Dahlman Counselors,
Millie Mentegenery treasure and Eda R. Johnson sec.Feb. 15th 1902 Alice Lambert became Pres. and Anna Smart and Erma Duke as counselors Eda R. Johnson Sec. and Millie Mentegenery Treas.

Heber West Ward Relief Society Officers were made as follows: Organized about 1879
Catherine Forman Pres. and Isabella Murdock and Mry Crook counselors. Sarah A. Jeggs sec
and Rhoda Moulton ass. sec. In 1833 Catherine Forman pres. Isabella Murdock and Christina
Giles counselors, Annie Davis sec. June 12th 1895 Sarah Cummings became president with
Christina Ciles and Mary E. Giles counselors. Hannah Harbour Sec. and Ruphenia Moulton ass.
treas. Feb 10th 1873 Christina Giles president with Mary E. Giles and Sarah E. Carlião
counselors Sarah G Forman sect. and Janet McMullin assistant and Euphemia Moulton Treas. June
1809 Maria C Giles became sec. The last meeting of the Heber Wested Ward was held on
May 20th 1903. It then became the Leber Second ward with Joseph A Rasband as Bishop.

On Sept 3rd 1879 the first Stake Relief Society was organized under the direction of the Stake presidency and sister Eliza R. Snow and Emmeline B. Wells sister Emma Brown was set apart as precident of the Masatch stake with Sarah Alexander and Mary Daybelle as her counselors with Mary Bronson secondary and Avis Bronson ass. Sec. and Mary McMullin teeas. At the death of Sister Bronson Josephine Chuff Jones became sec and later May 28th 1901 Han ah Harbour became sec on account of feeble health of sister Daybell resigned Sept 23 1895 and Sarah cummings was set apart as counselors to Emma Brown and Rhoad Ohlwiler became treasure. Each good was accomplished by these sister while in office. On June 2nd 1898 the

-27-

State Relief Society was reorganized under the direction of the Stake Presidency Sister

James S. Richards and Eddly S. Richards and Annie R Duke became president with Elizabeth H

Randoch and Louisa Alexander as counselors Ha nah Harbour see, and Rhode Obliviler treas. Those
sisters acted in their office so, a 12 years all except sister Harbour who had moved to charleston in 1903 and Sarah K. Duke was made see. These sister also deserve much credit for splendid
service given. On January 16th 1910 the stake Relief Society was again reorganized under
the direction of Press J.R. Nardock and the following officers installed Joannah E. Jensen
press. Hargaret Murdock and Sophia Luke counselors Carlie Clegg Tidwell sec. and treas.

Mina Broadbeat been e sec. in 1912.

A brief history of the Wasatch Stake Sunday schools. In August 1879 the Wasatch Stake
Sunday school board was organized with Scm J. Wing as Superintendent and James H. Moulton and
Ihm. Helfullin ass. The stake at that time took in a few Sunday schools in summit county. The
na ed of the successive officers are S. J. Wing, from 1879 to 1893, Joseph H. Eambart from
1893 to 1899 as superintendents first assistants J.H. Moulton from 1884 to 1885, Nm. McMullin
from 1885 to 1899 Uhm. Helfullin second cast. from 1884 to 1885. F. W. Giles 1885 to 1893
Richard Bridge from 1893 of 1899, In 1899 the following brothern were chosen as sides H. L.
McMullin, Joseph A Rasband, John W. Grock Wm. H. Bond, Frederick Grock and John Winterrose.
In 1903 Heber was divided into 3 wards and of necessity also 3 separate relief societies were
organized with the following officers. First Ward Alice Lambert Pres. Anna Smart and Margaret
Mardock counselors. Josephin Jacobs see and Mary B and treas. 1903 Margaret Murdock became
President with Glara P. Clyde and Annie J. Duke counselors, Later Arbelia Harvey became
President with Gertrude Crock and Sarah R Lindshy counselors and still later Elizabeth Me
Donald became president with Lacretia S. ith and Gertrude Crock counselors who are still
in office at date Oct. 1929.

Haggaret Murdock and Mary E. Giles counselors. Sop his Luke sec and May M. Duke treas. 1908 Margaret Murdock and Mary E. Giles counselors. Sop his Luke sec and May M. Duke treas. 1908 Margaret Murdock and Mary E. Giles released and Mina Broadbent appointed 1913 Mina Broadbent released and Rachel Ann Giles appointed 1st co.nseler and Janet Duke 2nd Counselor.

Heber Third ward relief society Jeannah E. Jensen became president about 1903 with Elizabeth Hicken and Maria C Giles see and Annie Clyde trens. Marion Campbell 2nd counselor. 1908 Sophia E. Hicken was released being called into the stake board. Maria Giles released

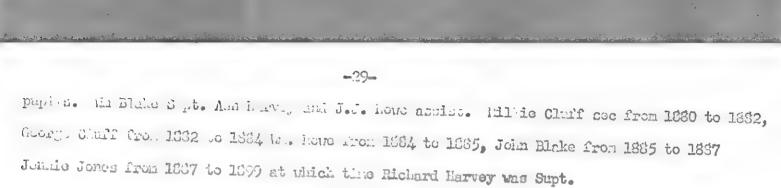

-28-

as sec to fill the ciffice of counselor and Lottie Mahoney became sec. 1910 Marry Clyde released to become ward president of the Y.L.M.T.A. Manicorook was treasure 1910 Marion Campbell became list counselor and Callie Tidwell Lad counselor. 1910 sister Jenson became stake president and Carlie Tidwell 2nd counselor. 1910 sister Jenson became stake president and Carlie Tidwell stake sec. Sophia E. Lieken became president of the 3rd ward with Marion J. Campbell and Marry A. Jorgenson as counselors. The sister of the 3rd Ward bought enough silver Knives and forks, tables and table limen to serve 300 people at once which is one of their noteworthy accomplishments. There are 9 wards in the stake. We only have information with regard to the 3 Leber wards and they containly have been faithful energotic workers through all the years. This information was mostly belief from Carlie's Tidwells history of the Relief Society.

A brief history of the Unsach Stake Sunday Schools taken from the book printed in 1899 the Sunday school Jubilee year. The Midney sunday school history as early as 1868. A sunday obbool was held in Midway with John Luber supertendent, George Davling and John O'Niel assistants. It too had 10 officers and teachers and 40 pupils in 1899 it had increased to 36 officers and teachers and 399 pupils. Superintendents in their order John Huber, W m W. W Wilson, George Dabling A.J. Alexander and Attawell Mootton first assistant. George Dabling and A. J. Alexander second assistants. A. J. Alexander, Ira Jabobs and Issae Jacobs. Sec. W. W. Wilson, M. A. Empey. D. S. Varangolar and Cloa Kuffaker. In 1899 the officers were Attawell Wootton Supt. A. J. Alexander and Issae Jacobs asst. Cloa Huffaker sec. The historical report shows that John Luber, A. J. Alexander, Attawell Wootton, James T. Wilson, Rackel Wilson and Cynthia Wooton have been Sunday school workers over 30 years and that Charlotte Gurney has been over 25 years.

The Buysvill Sunday School was organized in 1372 with 5 officers and teacher and 13 pupils in 1899 it has increased to 22 officers and teachers and 91 pupils. During that time there has been seven superintendent as follows: Edward Buys, Henry Relpon, S. J. Wing Sven Bjorkman, Wh. Thacker, John Bell and John Thacker. First assistants Wh. Thacker, Um. HeChile Sven Bjorkman, Wh. Thacker, G. J. Wallquist. At. T. Angell. Wh McGhie Wh. Ed. Buys and henry Moss and a neber of 2nd assis antse. Ass. Sec. Agnes McGhie. G. J. Wallquist, Wh. E. Buys, Saran E. Buys, Mary J. Kelson, Bell Penfold, John H. Carlin and Mary E. Carlin up to 1899 which was the Sunday school Jubilee year.

Center Ward Sunday School was organized in 1880 with 7 officers and teachers and 38

Charleston Sunday School was first hold in a private home in 1875 with 5 officers and to: chors and 20 pupils. In 1899 it had increased to 21 officers and teachers and 169 pupil. The names of the officers are as Collows; Supt. Un Wright 1875 to 1879, Joseph R. Murdock 1879 to 1881 Wohn H Marlock from 1831 1832, Hammel Richman from 1882 to 1883, Wm. Daybell from 1803 to 1899 accists. Edward Buls, Waldaybell, James Price, Wh Webster, Alva Murdock Secretaries Issaed Brown, Sarch Irits, Lucy Baker, Phoebe Daybell, Wm E. Bates, had been & Sunday School Worker 35 years, This was in 1899.

Wallaborg Sanday School was or amized in 1869 Superintendent H. W. Parcell and late J.R. Rogers and George Pickup Form 1373 the following have been sup. Dan Bigelow from 18.8 to 1879 George Dabling 1879 to 1860 Joseph Kirby from 1887 to 1891 Robert Cook from 1891 to 1899 assistante R.C. Camp. Rober Cook, Join C. Greer I.O. Wall. Sec R. C. Camp. Ada Clenn, E. A Daho, D.L. Bigelow, Elmer Pearod, Melissa Ford up to 1899. In 1878 the enrollment 15 officers and teachers and 90 popils in 1899 14 officers and teachers and 185 pupils, In 1899 there were small Sunday Schools hold at Elk Horn, Riverdale Lake Creek and Daniel Creek and Rose Hill butty they have been discontinued.

Anne R Date as commeters, Marien Teid see. In 1836 Mary Duel 2nd counsilor and Harneh Harbour see. In 1835 Jane Giles Iros dent Mary Date and Jane Shelton counselors, Farnah Harbour see. In 1837 Mary Bond see. In 1904 Janet Mainil a pres. and Josephine Broadbont and Mary M. Fisher coun. Mary Bond sec. 1910 Josephine Lycadont pres. Mary M Fisher and E is Carlile couns. In 1921 Gora Will a became 2nd coun. and later Vera Moulton became 2nd coun. in 1927 Annie J. Shith became sec. In 1929 Annie J. Shith became sec. In 1929 Annie J. Shith became one. and Catherine Moulton se.

The Formy Lone Butual I prove ht Association was organized in Heber about 1889 with Robert S. Dale as president. There is no record we could find as to who were his counselors

-30-

or who was see. From memory we believe Joseph Moulton was the Heat pres. in 1883 T. S. Matson became stand pres. of the Y.H.H.H. and later Jan s.H. Moulton was pres. with Fred Rabband and Andrew Molason coun. Later Mathinday became coun and still later A. Y. Duke acted in that position. About 1903 Joseph W. Masser was pres. for some years who was followed by John T. Roberts for some time. Then A. . . hansen, C. M. Evoadbant, Selvester Brondbent and John A.Anderson. In 1926 Heber M Rasbe & became free and still holds that position.

Pair area Thomas Liebea and First evaluated latriach in this Stake 1830 John Duke in 1894 and John harrock in 1899, Thomas h. Giles, h.S. Alexander, John Mc Bonald and Roberts. Duke in 1902by F. M. Lynan. Some time later Abran Lach, M. C Murdock, Henry T. Coleman, William Dayboll. F. A. Fraughton, John A. Fortie and Attauell Mocton.

The firs low, ladies His of the state was organized May 1881 by pres. A. Hatch with Josephine C. Denes as pres. and Hary Duke and Mary Forman as coun. On May 8th 1885 Ruth Latch became Pres. 1892 Annue Duke and 1898 helly Michen, 1904 Eliza Ranband, 1910 Clara Clyde, in 1916 Jennie Breadbant pres. while Historian Moulton and Lula Clera counselors and Almie L. Clyde sec.

The High Priests Querum was enganised by John Young a brother of Press Brigham Young at Leiber in 1861 with Elisha Avenutt see. as press in 1862 John M. hurdock pres with Thomas Told and John Jordan as coun. And the Aird as clerk. Later Thomas Bicken and John Dulto became his counselors and C. L. Cerroin clerk. In 1865 Wm Lindsay became clerk and held that position 20 years. In 1908 A Lauell Mootton press and he chore Wm Lindsay and Joseph Louiton as counselors, John T. Liles clerk. About 1911 C. J. Wallquist was press and he retained W. Lindsay and Joseph welton cluss. About 1915 Adolphia T. Dulte press and he chore David Lichen and E. J. Duke as counselors and John F. Chiwilor as clerk. These brothern are still in offices. There has been some question as to the exact time that the bill passed creating Masatch County.

by writing to Mr. Welling at present see of the state we learn that the Lill was passed in 1362 creating Macatch County from a part of Utal. Coalty and that the legislature adjourned on the 17th day of Jan. 1862 and as effere stated John W. With had be appointed Probate Jud, a subwas an horized to appoint officers for Micronity. In the suggest of 1862 some kind of arms jeneate had been made to have hard prought from Mr. Il Kimbell's mail station to have in the summer months Issue O. Wall carried that mail on horse back. He says about we

T. S. Matson began to read daily obays between Hober and Park City about this time and later Joseph S. Lurdock as a sone and still later Luke and Hatch run the stage to Park City Finally 2. J. Dune bought out the end delated and applied for a government contract to carry mail from Far. City to heler up to that time Pur' City Mail lad to go be way of Provo. He got the contract and we have had a daily mail from Fark City over since and E. J. Duke is still carrying the mail. This too has proved a great tenefit to the people of Hebor.

About this time frod Hays was postmaster for a short time followed by John Smith. who served as postmaster so to 16 years. The Pariel McMillan for some 6 years. Guy Duke 2 years Jay senson a short till be recipied and 12 randa daith filled his term and later received the appointment as postmaster in 1924 and she is still in office. The Masatch Wave our use My paper was first published of a company in 1889 Wh. Buys Editor and manager. This too has proved very beneficial to the passes of Masatch county over since and is now under the able manager ent of Charles M Broadlett and is a factor for good in our community.

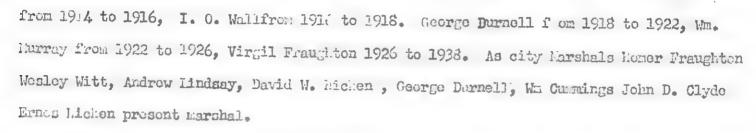

John W. Witt as before stand or crided the county officeils as follows; 1862 he held in into office until 1803 when A run rabb was applicated as Probate Judge of Masatch County, Nearly helablic and Sidney Apparaon were applicated as selection at that time. June 1st 1874 though a new till a became Probate Judge and John W. Witt, W. E. Nuttalland John Watkins select none for the County. 1864 J. 3. Whise, bear a Trobe of judge and George W. Glyde and A. J. Allumender and Joseph B. Mardoe, sel charm. Milliam S. Willis became probate Judge about 1870 and held that office until 1896 when Utah was admitted as a state Jan Ath. After that the the state was divided in to district and district Judges appointed will the refular

election in November A. C Hatel metad as j dgs and 1 to election took place. Then Warren S. Dute berry was a caled and 1 hill office until 1900 John B Boothe was judge from 1900 to 1912. A. B. Hargan from 1912 to 1921, Elias Hansen from 1921to 1925. Martin Larsen a short time and at the present time and at the present time and district A. V. Wathins and George Worthen

office up to 1894. Though Latties from 1894 to 1896, James W.Clyde from 1896 to 1898, E. D. Clyde from 1898 to 1900, Robert Duke from 1800 to 1902, At which time Meber organized as a city with a mayor and city council James. W Clyde was the first mayor and held the office from 1802 to 1904. Joseph A Rasband from 1904 to 1906 and during his term of office the water works were installed in most of the homes in Meber. This has proved a very great blessing and benefit to all. Joseph R. Mardock was mayor from 1906 to 1908 and while he was mayor the Electric light plant was built. Poles and wires put in place and the electric lights installed in most of the homes in the city. Another wonderful improvement ower candles and coal cil lamps that were out only lights in years gone by and these impovements were very much approached by all the people. J.W. Clyde was again elected mayor from 1908 to 1914. Then John E. Meulton from 1914 to 1916. "Ray Match from 1916 to 1918 John A Fortic from 1918 to 1920, E. J. Duke 1920 to 1924, J. E. Mc'ullin 1924 to 1928 and H. Clay Cummings from 1923 to 1936.

The followingmen have held of the cither sentatives from Wasatch county. E. C. Chamber as firs senator elected in 1896. Joseph E. Murdock first representative from this county after stars held 1896 to 1898, J. W. Clyde 1898 to 1900. Wilford VanWagener 1900 to 1902 James B Wilson 1902 to 1906. W.B. Pope 1906 to 1910. Wm L VanWagener 1910 to 1914, J. W. Clyde 1914 to 1916, George Fisher senator to dates. Wm L VanWagener 1916 to 1918, George F. Ryan 1918 to 1922. Fred Crook 1918 to 19 Wm. H. Smart no dates. Paul Hunt 1924 to 1926 James F. Wilson 1926 to date.

The names of the me who have served as shorriff of the country as far as we can find out are Smelling M Mehnson a short time. John Hamilton several years. Richard Jones Sreserved also many years and Home Fraughton. After Utah was admitted as a state in 1896 Johns S. Murdock was the firs sherriff he served 2 terms. Robert Clyde was shrriff from 1900 to 1902, Wm conner from 1902 to 1903, Isaac 0 Wall from 1908 to 1914. Virgil Fraughton

Abram Mate: from 1867 to 1877. At that time to Wasatch stake was organized and Abram Match was made stake press, and Meber was divided into the Masatch stake was organized and Abram Match was made stake press, and Meber was divided into the Mast and West words main street being the dividing line. Thomas Rasband became Bish op of the East Ward. He died in 1864 and was succeeded by Robert S. Duke up to 1902 when he was ordained a Patriarch his son Robert S. Duke was Mishop of the lab ward from 1902 to 1916 he was then made a High Councilor and George F Ryan became bishop in 1923 he was made a counselor in the Stake Presidency and George B Stanley became Bishop and is still acting. When the West Ward was organized in 1877 Wm Forman breake Bishop for some years. Then Henry Clogg was Pishop up to his death in 1894. Thomas hishen came Fishop 1903 he was released on account of his moving away. At this time the 3rd wasrd was organized from the southern part of Bast and West Wards. And the East ward was called the First Ward with Joseph A Rasband as Pishop and he held that office up to Fov 1926. He Clay Currelings then became ishop but in 1927 he became a counselor to D. A. Brondbent in the Stake Presidency and Frederic: Carlille became Bishop and is still acting.

When the Third Ward was organized Frderick Crook was installed as Bishop and he is still acting in that position.

Masatch County School Building are all up to da o in every particular being confortable convenient well lighted and well furnished throughout perhaps as well fixed as any in the Stae of Utah which is known to be in the lead in educational matters. We are also well supplied with the best of teacher men and women who are capable and competent carnest and willing to work for the advancement of the papils in fact we have nearly always have had excellent teacher in our schools. Our enterch leaders here have all been much interested in the education of the young people.

Pres. Latch while in the Legislature presented the bill making free schools in the State. Our high School buildings are especially worthy of notice for the beauty of their architectur an uplendid class rooms and their suple accomations with swimming pool, gym a dall other late improvements. What a wonderfulchange from the first school house built here of logs

There is also a considerable amount of prime boof shipped each year. A pea Connery built here several years ago has proven a great benefit to the farmers. As a good prime in each is paid for the leas, Sugar boots also have been raised in the county mostly by those over at Wallsburg and Charleston and good returns, Wheat and oats are raised profitable enough to supply the local de and and timenthy hay and alfalfa are raised in aboundance. Splendid tegetables gardens are raised.

Some seasons and loss are raised quite plentifully. The valley is well supplied with water for irrigation and the city of Heber has an abundant supply of the best water to Be found anywhere. We selden have any very heavy winds being sheltered by the mountains close by. And taken altogether there are few if any other places that have so many advite, as as we have in our own levely little valley. There is no town in Utah of the size of Heber that has more a mfortable convenient homes and there people generally are better fixed financially and the same may be said for the other towns in this county. Many have noved away in years gime by an account of our short season and long winters and many have been glad to return and make per amount homes. For some years there was more or less disputing ever we are rights of a manufacture and individuals have all been established by the courts—and we find there is a liberal Supply for everybody.

In 1924 we had a wonderful Home Coming Celebration some four or five thousand people of the had no rly all decided they had made a great mistake in over leaving this beautiful little valley with all its many natural advantages and their good freinds and noig bors, for who they and great love and respect and go among strangers.

Un H. Shart was Prs. of the W satch Stake some five years and during his administration he surely labored hard to better the condition of the people spiritually and temporally.

We visited all the words in the stake often and kept the member of the High Council and Highes stirred up to attend strictly to their church duties. He was a real leader and trainer of men and set a splendid erm plo in his walk and conversation among the paper of this county. The Heber Tank which has been a great benefit to the people of county. The Heber Mercantile coupling also remained under his direction. He also give a sort of mission to J seph R. Murdock to see to securing all surplus irrigation under for the benefit of the whole pupils.

In August 19 6 ho was rule sol as irosident of Wasatch Stalle and appointed President of another stalle of Zi m and J solh R Hurdock took his place here with J.C. Jensen and E.D. Chyde as compolers. George M. Jurjensen Stalle clerk and later M. Ray Match was a compeller and D. A. broadbeat clerk. Still rater D. A. Broadbeat was counselor to Fres. Landock and C. M. Broadbeat was clerk and in 1921 George Ryan became counselor J. C. Jensen in wing moved to Salt Lake Chey.

In 1927 Juscil R. Nurdock was released as press of the Stake and David A. Broadbent succeeded link he chose H. Chay Curnings and Don Clyde as counselors and C. N. Broadbent retained as clock.

The limbers of this county were practically all member of the Maron Church and are as a matter of course a home lowin law abiding people who as a rule try to observe the Colde. Rule to do unto others as they would wish other to do to them. Consequently there has been very four of the grosser crites committed in the county in the seventy years shall the valley was settled in 1859. At Midwey we have the Hot lots which are quite a curiosity in their line and which furnish splendid bothing reserts and many come to visit there in the sumer season and also to visit Memorial Hill which affords a magnificent view of the leveliest lottle vally in the west. At a great expense a very that are read has been made to the top of that hill by starting at the bottom of the hill and circling around it 3 times to get a prior grade for getting to the top it is some two to three hundred foot high and there is now a very nice memorial menupent creeted on the top in memory of all who have served their country in the Indian wars in Utah and the Spanish Alerican War and the World War and their makes are engaged on a basement of canonic tit is any or ad war will be piped up there and flowers and shrubs made to grow

The population of the county at the present time 1929 is between four and five thousand. The half of which reside in habor which is the county seat and the terminus of the D. R. D. Rail of which has been one of the main factors in improving conditions and in helping to lower the taxes of the people. The link Utah mine has also been a great help to the people of the county in that regard it is said to pay nearly one half of all the taxes paid in the county begides it families exployment for a great many men at good wages and Mr. But the superint man, around the him which is now said to be the heaviest producer of silver and load in the United States. Altogether we are exceptionally well favored as a community, no healthier climate in the world. Our nights are exceptionally well favored as a community, no healthier climate in the world. Our nights are exceptionally well favored as a community, no healthier climate in the world. Our nights are exceptionally well favored as a community, no healthier climate in the world. Our nights are exceptionally well favored as a community of healthier climate have said schools are exception. We also have a very good free Library to which all citizens have free access and a precable law abiding people nearly all of which our their house and allk their our coustand have grades to raise their vegitables. Nost every family keeps a four chicken also.

It used to be that nearly every and dr ve his our team exen for many years and later horses and mules. But now nearly every family has an auto to ride in besides the horse to used on the farms and instead of taking 2 days to go from here to Salt Lake City as it did with the on teams any go there now in fine cars in 2 hours. What a wonderful change in conditions.

The panogos one of the so highest mountains in the Westch range and the most noted so ... In his spaces with show are to be seen fro. All through the sumer months and it is from this side of the ... In regard, remarked for their efforts by the truly grand vive they get not only do they see With and Prove or Heber Valley as it is now called but far beyond even into the states of ... The length of Wassich County at the present time is about 50 miles from the head

37

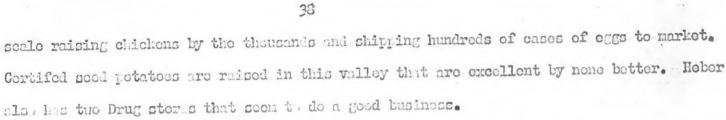

the finest hind of mountain seemery to be found anywhere near the head of the Prove River.
There are many very fine labes a number of which are being used as reservoirs to conserve the unter for irrigating purposes. There also many fine groves of pine timber. An ideal place for spending a vacation in the hot summer menths. In the southern part of the county lies a beautiful Strauberry Valley where the foverment Irrigation project in Utah was constructed and where a tunnel was driven several miles through a mountain to carry the impounded water on to the hundred of acress of growing crops in Utah county. The Valley is some \$7000 feet above see level where many tourists go for sport and pleasure in the summer menths. There is the levely large labe where trout that weigh ten to twelve pounds are frequently caught. Boats can be get to row out for miles on the smooth surface of the water whether for fishing or a pleasant beat ride. There are still many groves of saw timber inside the rim of the valley. And two or more samills are busily at work sawing the logs into luber to be used in building homes and buildings of all kinds.

The road through Daniels Canyon and on through S trauberry to the county line is now in fine shape having been turn piled and graveled all the way. In fact the main traveled roads all through the county are all in splendid condition for auto travel.

There is an up to date creamery and the se factory right in Heber which has bough all the surplus milk of the farmers and citizens a great many years and seems to give good satisfaction. There are also creameries in Midway, Charleston and Wallsburg. So the farmers get cash for their wilk twice cash, months all the year round. Heber has a number of garage's and service stations to accoundate the automobile owner. There are also several miles of paved streets that is the sidewalks are paved and the at cets for the accomplation of the people and where goods of every description are sold reasonable clear.

There are 2 hotels to care for the wants of travelers and tourists. There are 2 grist molls to prind the wheat into flour. There are some 4 coal yards and coal is brought to Heber by the railroad from Carbon C unity. The U.I. Railr ad had a spur built to the Park Utah Mine some years ago and makes a trip each day shipping the ore several corloads are taken each day. There is a planning will in heber where lumber is planed ready for use by the carpenter in building houses.

J. Claude Micken and a fow others are resporing in the chicken business on quite a large

Wasatch County has been noted for raising fine stock especially cattle, horses and shoop. Winterton brothers of Charlest n have received many prizes for their hereford cattle not only at the Btah fair. Joe Buir and others have also taken prizes on their jersey stock at the State fair for Cotswold sheep and other breeds. For the last few years, the Wasatch C unty stock show has been held in Heber in August of each year and a very fine showing of stock has been made each year many boys and a few girls have taken a pride in showing their animals that they are raising especially dairy stock . And in connection with the stock show a flower show has been hold in the assessment hall each year and it is really wonderful the beauty and vari ty of the flowers and really very splendid showing has been made each year prizes have been awarded to wards and also to individuals for the best variety of flowers and for their most perfect arrangement. The stock and flower show has proven a great success.

Quite a number of our Wasa ch county boys have made good and become promintent men in the state of which perhaps, Joseph R. Murdock is the most notable example and though business calls him to other parts of the state he still retains his residence here and is proud of it.

For the last 30 or 40 years reservoirs have been made in different parts of the county to concerve the water supple for use to insure the maturing of the crops. J. R. Murdeck has been the premotor of many of these projects especially those at the head of the Provo River. the project especially deserves mention. What is called the Willow Creek ditch in Daniel Campon the Water is taken out of the Strawberry river and to bring it into Daniels Campon a turnel had to driven through a mountain senothing near a 1000 ft. This work was done near 4. years ago when there was pracically no conveniences for that kind of work and it was considered quite an undertaking at that time George Muir and James and Andrew Lindsay drove that tunnel and got the water through it which has been a great benefit to the farmers and secthe reight at the Stranberry un or long before the big dam was though of. The Center and Lake Criil Irri ation Co panies have constructed reservoirs for the benefit of their water user and serveral priva e individuals have also built reservoirs for their our convenience. John W. Witt was perhaps the first to build a reservoir in the county. It was in Lake Crock Cany n andwas firs used in running his unter power saw ill. It was later enlarged and is still 39

The Stake tabernacle in Never which was conletted in 1887 under the supervision of Prs. Abram Natch was well built substantial building with a council room on the west end with an upstairs from for private councils. The stand also in the west and and a gallery supported by posts on both sides and on the cast and the floor level. And it served a good purpose thr ugh all those many years. It was heated \$4 by four stoves one in each corner however that and the arrangement of the galleries were some what out of date. Through the advice and with the consent of the high church officials it was decided to remodel the building. The church agreeing to pay me half of the expanditure. So in 1928 soon after D. A. Broadbent became stake president work was begun in cornest under Pres. Broadbent supervision and the result is a very fine up to date state talernacle heated by a furnace and a fine stage suitable for all lagents of Flays that are necessary to be put on by the auxillary organizations with curtains and all necessary appliances and rooms. The Stand is nicely arranged and the floor is an an incline and a fine callery with raised seats in the east end that will seat 300 persons. Altogether the building is improved wonderfully in every respect. The cost so we understand uns about \$27,000.00 The stake president and the High Council now have convenient and comfortabl. quarters in the new steamheated Seninary building.

A brief synapsis of the Military Service rendered by the men of this county in the different wird that have taken place since the settlement of the county in 1859. The Mack Hauk Indian Mar began in Sampete county in 1865 and spread all over Utah south and east of Salt Lake City and in the two years following 70 white persond were killed. Thousands of people had to leave their how a and move into the larger towns in order to protect the selves. And millions of dellars worth of property was destroyed. In the 26th May 1866 the Territorial Millitia of Wassatch county was reorganic d as Meber by Colonel Robert T. Durton and David J. Ross. John W. Witt was appointed as Maj r ever all the Millitia of the county and Charles H. Wilchen Adjutant, J has Madditon amjor of the Infantry companies, S.M. Epperson Captain of Midway Cavalry and Ira M. J cob Captain of the Infantry. Same 276 non were enrolled and all did more or loss in convice. It white lives are lost of that number and only an Indian Milled and another wounded but thousands of dellars worth of stock were stellen by the Indians. At least seven different and seperate raids were made on a course and all they drove off only a very few head were get bick. W. Bradford Sessions lost seven cous in raid.

46

In the Spanish Aperican war three men went from Heber. They were Moreni Turner, Eller Duncan and Taylor Coodwin and one from Midway. All these returned safe home and a wonderful colebration was held to welco a them home after having risked their lives in the service of their country.

In the terrible World War some over 200 men were enlisted from Wastach County and quite a number went over seas and ere on the firing line and helped todefeat the German Army that had started to conquer the world. Tuelve of our Boys nover returned alive. Five ere killed in action in the battle fields of France and Belguin. Their names are George W and Dan A. Lockhart, Arthur Ivic, Ross have, George William Carlile, Seven died from disease in the training casps their names are Jihn W. Bernes, Ray Ivic, Bernell Coleman, Wh. L. Jacobs, Wilbert Johnson, Homes McDonald Russell Luir, Guy B Alexander was killed in a railroad accident, our out to a training casp. Ten other were wounded in battle they are: Wallace Blackley 6 sto Bell, Lerby Boren, Guy Duke, Ellis Epperson, Andrew M. Fisher, Worth Mahoney, Forest II antgemery, Wh. II Taylor and Amas Wall.
